Thank you for purchasing the Dynamite® Turbo Flow Air Filter. The following is a list of tips to help you get the greatest performance and longest life from your Turbo Flow Air Filter.

1. Frequently clean the Turbo Flow Air Filter using soap and water.
2. After drying, apply a lightweight oil to the foam uniformly.
3. Install the Turbo Flow Air Filter on your carburetor by carefully stretching the rubber boot over the carb intake. Be careful not to rip or tear the rubber base.
4. After use, thoroughly flush the Turbo Flow Air Filter with soap and water and allow it to dry. Store the dry (no oil) air filter, oiling prior to use.
